Dear Sir:

Thank you very much indeed for the reprint from the JAHRBUCH DES DEUTSCHEN ARCHAOLOGISCHEN INSTITUTS. I am very glad to have this because it will enable me to keep in touch with what might have been done in Italy during the period you cover. Some day I hope to publish a supplement or second edition to my bibliography on Greek coin hoards, and it is from such sources as these that the material must be culled. I hope some day to meet you in person and tell you what a splendid piece of work we consider your classification of the Tetradrachms of Syracuse.

Very sincerely yours,

Secretary
